LETTER TO EDITOR

July 2, 1962

Dear Editor:

Of all the things I have ever heard, nothing hurts me as much as for the Supreme Court to give such orders as to not have prayer in our schools, so the young people can be taught to know all our blessings come from God and their future depends solely on putting their trust in God who has made this nation great by putting our trust in God. Kennedy says they can pray at home or in their churches. A great majority don't pray at home or go to church so why should our Supreme Court give such orders. It is stamped on our money "In God We Trust". For never in my life have I had anything to hurt me so much because if this is carried out by the Supreme Court we may expect to be destroyed like Sodom and Gamorrah on account of their not honoring God. I do hope and pray that the Congress and Senate will see that these orders are changed at once. I hope our Supreme Court and every one will realize that without God's blessings we are doomed.

NANCY HARPER WINS 4-H WOOL OUTFIT CONTEST

JACKSON'S MILL—Nancy Harper, 15, Pocahontas County, was the winner of the 1962 4-H Wool Outfit Contest held at the State 4-H Camp as a part of the State 4-H Roundup.

Miss Harper wore a versatile coordinated outfit including jumper, blouse, jacket and hat. The blouse of the outfit was made of dacron. Miss Harper distinguished her costume by the use of hand detailed trapunto quilting as an accent. This type of quilting is padded and puffy. The edge of her jacket was bound in self material. The binding was the same width as the corded self belt. The belt was tied around the waist of the jumper. For added effect, the belt was also twisted.

Miss Harper has been active in club work for over six years. She is a member of the Marlinton Live Fires club. She has completed nine projects and is carrying two projects this year. She has received five ribbons awards on eight of these projects and both county and regional events.

Nancy said, "I had never had experience in cooking or sewing until I joined 4-H. In my first year I took 'Learning to Sew' as a project. I learned to use a machine and sew by hand. My sewing projects have also helped me in the selection of clothing. I am conscious of construction. I also found that I am able to better fit when I make my clothes."

Other 4-H girls were listed in the top group. They are Peggy, Hampshire County.

Miss Mary Katherine Sharp

Miss Mary Katherine Sharp, daughter of Mrs. Robert K. Pyles of Shadwell, Va., has been accepted for the American Airlines Stewardess College in Fort Worth, Tex.

Miss Sharp is a graduate of Albermarle High School of Charlottesville, Va., and has worked for the past year as business secretary for the graduate school of business at the University of Virginia.

Miss Sharp left by plane on Saturday for training in Texas. Her friends wish her much success in her new work.

Miss Margie McCarty of Nashville, Tenn., arrived Monday for a visit with relatives here.

These business and civic leaders are planning the October Finance Campaign for the Boy Scouts for the 1963 budget. The Marlinton drive

will be sponsored by the Rotary Club. Other communities in Pocahontas County will conduct simultaneous campaigns.

There is a goal of \$6600.00 for the Greenbrier Valley District which comprises Greenbrier and Pocahontas Counties. An effort will be made this year to obtain more contributions from individuals in order to approach the \$10,000.00 necessary to support a full time professional field man. A full time professional scout would provide the necessary leadership to establish an effective scouting

program in this area. The amount to be raised by the entire Buckskin Council is \$94,000.00. This money is needed to provide the leadership and the scouting facilities to adequately serve the 8,000 boys and 2,000 adults in the counties of Pocahontas, Greenbrier, Nicholas, Webster, Braxton, Clay, Fayette, Kanawha and Putnam. Edward T. Stemple, Assistant District Commissioner for Pocahontas County, announces that scouting is being expanded in this county and that more boys need to be reached.

Green Bank Homecoming Spoiled; Marlinton Gains Tie For N.G.V.C.

Hillsboro High School Red Devils defeated Green Bank 26-0 Saturday to ruin the Golden Eagles 1962 Homecoming. This was the first time in over 30 years that Green Bank has been beaten by Hillsboro on their home field. It also marked Green Bank's sixth straight loss without a win.

One gay note on an otherwise dismal evening was the crowning of Miss Carol Gardner as the 1962 Football Queen of Green Bank High School.

Marlinton High gained at least a tie for their second straight Northern Greenbrier Valley Conference title by downing Union by a score of 26-6. If Greenbrier High School of Ronceverte should gain a tie for the crown then the title would be determined by the season record. The one having the best record would then meet the southern winner for the Greenbrier Valley Conference Championship.

In games this week Green Bank will play host to Cowen Friday evening at 1 p.m. Hillsboro will travel to Crichton Friday for a night encounter. Marlinton will try to keep its record intact when they travel to Richwood for a Friday night game. Game time is 7:30.

Open House Planned For Later Date

Have you noticed the change?

Today marks the start of a new era in the publication of the Marlinton Journal.

To provide a better service to the communities the Journal has installed the very latest equipment for newspaper publishing. The complete shop with the exception of the darkroom fixtures was supplied by the Addressograph Multigraph Corporation of Charleston, West Virginia.

What this means to you, Mr. and Mrs. Subscriber is an easier to read newspaper with more, better and clearer pictures of local events. It also means that these pictures can be in the paper without delay. Instead of having to wait several days for mats of pictures to be made out of town, we can process pictures immediately with our new graphic arts camera.

To the Advertiser this means a greater versatility for your advertising with clear, sharp, black and white or color copy.

To all it is a significant step to illustrate the progressiveness of our community in keeping stride with the advances in sciences and industry.

In the somewhat crowded shop of the Journal the new stands alongside the old. The new includes a cold type composing team, a Headliner and Varityper. These two pieces compose the body type and the headlines of the paper.

Copy is then pasted on to a layout sheet and photographed with the the fourteen-foot-long camera that is part in and part out of our new darkroom. From the negative that is developed here, a plate is made to run on our

new Multigraph Model 2024-1 Offset Press.

We wish here to acknowledge and give thanks to the following people for their assistance in making this transition from the old to the new, possible.

Mr. W.W. Addleman for constructing our new darkroom. Mr. Herman A. Brown of Brown's Plumbing Shop for the fine job of plumbing in our darkroom. Mr. Johnnie Keen of Keen's Electric Service for the electrical wiring he did for the camera and darkroom. Mr. Edson B. Pierce of Eastman Kodak Company for his instruction in operating this giant of a camera. Mr. Kenneth C. Emberton and Mr. Jack Stober of the Multigraph Division of Addressograph Multigraph Corporation for their technical assistance and instruction on the other equipment in our new shop.

As soon as we can dispose of some of the old equipment in our shop, and we can accommodate a number of people without them stepping on each others toes, we plan to have an open house to show off our new equipment. However if your curiosity gets the better of you, and you would like to see the equipment that makes this new look possible, please drop in and visit with us. We will be happy to show it to you.
